

Our quality policy:

Quality like original parts	... or better. We want to distance ourselves from so-called "cheap imports".
Delivery reliability and dependability	The delivery time should not exceed 15 working days. Promised dates should always be kept.
Middle price segment	We rely on a solid price-performance ratio.
Error avoidance before correction of errors	We prevent mistakes in form of training, good teamwork, correctly set machines and constant technical improvement
Constant improvement of our own organization	The quality management system ensures that processes are constantly improved, that the state of the art is maintained and that performance is adequately increased.
Employees qualification	We continuously train our specialist and executive staff. An well motivated and qualified employee is our best asset.
Compliance with all requirements	We are committed to meeting applicable legal and regulatory requirements.
